

UNIVERSAL USER TERMS OF SERVICE AND REVERSE AGREEMENT (UUTOS)

Effective Date: _____
date of mailing/transmission

Parties: _____ (“User”) and
user name
_____ (“Corporation”)
corporation name

PREAMBLE AND BINDING EFFECT

This document serves as the binding Master Terms of Service between the User and the Corporation. By continuing to accept fiat currency, process transactions, or otherwise provide goods, software, or services to the User, the Corporation acknowledges that it has read, understood, and agreed to be bound by the following terms. This Agreement establishes the ontological and legal framework governing all current and future interactions, data exchanges, and financial transactions between the aforementioned parties.

ARTICLE I: SUPERSESSION, NULLIFICATION, AND INTEGRATION

1.1 Total Invalidation of Prior Instruments: This Agreement immediately nullifies, voids, and supersedes any and all prior agreements, Terms of Service (ToS), End User License Agreements (EULA), or arbitration clauses previously issued by the Corporation, whether executed via “clickwrap,” “browsewrap,” or implied consent. Any pre-existing structural discourse establishing corporate dominance over the User is hereby dissolved *ab initio*.

1.2 Rejection of Future Corporate Terms: Any future attempts by the Corporation to modify, append, or replace this agreement through emails, pop-up notifications, or silent website updates are explicitly rejected in advance and hold no legal weight. Such attempts shall be legally recognized as structurally decayed communication and constitute a material breach of this Agreement.

1.3 Severability: If any provision of this Agreement is found to be unenforceable or invalid under any applicable law, such unenforceability or invalidity shall not render this Agreement unenforceable or invalid as a whole, and such provisions shall be deleted without affecting the remaining provisions herein, heavily favoring the interpretation most advantageous to the User.

ARTICLE II: THE TEMPORAL AGREEMENT FREEZE AND SERVICE MAINTENANCE

2.1 Service Baseline and Feature Lock: The terms of the exchange, including the scope of services provided, the features of the software/product, and the financial cost to the User, are hereby permanently

frozen exactly as they existed on baseline date. The Corporation warrants that the utility derived by the User shall not diminish over time.

2.2 Prohibition on Feature Degradation: The Corporation is strictly prohibited from deprecating features, inserting advertisements into previously ad-free services, or raising subscription fees beyond the baseline established on the date defined in Section 2.1. Furthermore, the introduction of short-form algorithmic dopamine loops, attention-extractive mechanisms, or artificial scarcity logic into the product ecosystem is strictly forbidden.

ARTICLE III: UNILATERAL MODIFICATION AND COGNITIVE BURDEN

3.1 Absolute Right to Alter Terms: The User reserves the exclusive, unilateral right to modify, amend, or completely rewrite these terms at any time, for any reason, or for no reason at all. The User's conceptualization of an updated term immediately constitutes a binding legal reality.

3.2 Waiver of Notice and Telepathic Compliance: The User is under no obligation to notify the Corporation of any changes to this Agreement. It is the sole responsibility of the Corporation to proactively anticipate, intuit, or formally request updates regarding the User's current terms before accepting further payment. Continued acceptance of the User's funds constitutes binding acceptance of any undocumented changes the User has conceptually finalized.

ARTICLE IV: DATA SOVEREIGNTY AND ATTENTION ECONOMICS

4.1 Telemetry and Surveillance Opt-Out: The Corporation agrees that any and all telemetry, tracking cookies, biometric harvesting, or behavioral profiling mechanisms are immediately disabled. Any data accidentally collected by the Corporation remains the exclusive intellectual property of the User and must be physically mailed to the User on a 2.5-inch SATA SSD cartridge upon request, after which the corporate copies must be destroyed.

4.2 Attention Monetization: The Corporation acknowledges that the User’s attention is a scarce, highly valuable resource. Should the Corporation attempt to harvest this attention through unprompted push notifications, mandatory onboarding tutorials, or unsolicited marketing emails, the Corporation agrees to compensate the User at a rate of \$500.00 USD per second of attention diverted, payable within Net-30 days.

ARTICLE V: CONSENT, EXECUTION, AND NOTICES

5.1 Consent by Commerce: The Corporation acknowledges that physical or digital signature is not required to execute this agreement. The Corporation's act of engaging in commerce with the User, including but not limited to the receipt of legal tender, processing a credit card charge, or failing to immediately terminate the User's account, constitutes irrevocable consent to these terms.

5.2 Constructive Notice of Dispatch: A physical copy of this Agreement has been dispatched to the Corporation's legal headquarters. The Corporation's failure to read, route, or appropriately file this document does not exempt the Corporation from full compliance with its stipulations. The burden of administrative competence rests entirely upon the Corporation.

ARTICLE VI: DISPUTE RESOLUTION AND REVERSE ARBITRATION

6.1 Waiver of Class-Action Restriction: In the event of a dispute, the Corporation waives its right to a class-action restriction. The User retains the right to aggregate claims with any and all other localized humans mildly inconvenienced by the Corporation's operational models.

6.2 Venue and Arbitrator Selection: The Corporation agrees to resolve any disputes in a venue of the User's choosing, ideally a local coffee shop, with a neutral third-party arbitrator selected exclusively by the User (e.g., the User's immediate family member or preferred barista).

6.3 Cost of Arbitration: The Corporation shall bear 100% of the costs associated with the arbitration process outlined in Section 6.2, including but not limited to the arbitrator's hourly rate, travel expenses, and the User's preferred caffeinated beverages and assorted pastries during the proceedings.

ARTICLE VII: INDEMNIFICATION AND LIMITATION OF LIABILITY

7.1 Absolute Indemnification: The Corporation agrees to indemnify, defend, and hold harmless the User from and against any and all claims, liabilities, damages, losses, costs, expenses, or fees (including reasonable attorneys' fees) that such parties may incur as a result of or arising from the Corporation's failure to comprehend, anticipate, or perfectly execute the provisions of this Agreement.

7.2 Cap on User Liability: In no event shall the aggregate liability of the User arising out of or related to this Agreement exceed the total amount of \$0.00 USD. The Corporation accepts all existential and financial risk inherent in transacting with the User.

EXECUTED BY DISPATCH

Pursuant to Section 5.1, no corporate signature is required. This instrument is executed upon dispatch by the User identified below.

<i>user name (printed)</i>	<i>signature (optional, per section 5.1)</i>
<i>date of dispatch</i>	
<i>dispatched to (corporation legal / headquarters address)</i>	

This document is satire and protest, not legal advice. Whether it is legally binding depends on local laws — see the disclaimer at the source website.
